

Who is Accutone?

A well-known brand name within the call-center and office headset market segment, Accutone has been one of the most preferred professional brands for close to two decades. With vast experience and expertise in acoustics engineering and noise-reduction, our headsets are designed for the toughest industrial environments. Although our PRO-level products are mostly customized and sold through direct channels, we are now offering a wide lineup of off-the-shelf products using the same level of industrial standards which clearly distinguish us from the rest.

Professional Standards.

Excalibur^{M310}
